

Dear Store Manager:

I am a dedicated shopper of your grocery store and encourage you to carry Udi's Gluten Free Free Foods in your store.

People who have celiac disease or gluten intolerances cannot eat or digest the protein, known as gluten, which is found in wheat, rye and barley. The number of people who live with celiac disease is staggering and as a consumer, it's my responsibility to demand delicious, high quality and delicious gluten-free baked goods. Udi's Gluten Free makes the best gluten-free breads, muffins and pizza crusts.

Right now, I am ordering Udi's Gluten Free Foods on-line, which are lost dollars for your store. For information about Udi's Gluten Free, I urge you to view their website UdisGlutenFree.com

Thank you in advance for acting on this request.

PLEASE CARRY
